DETAILED ACTION

Response to Amendment/Arguments

5. Applicant's amendment and arguments filed on 06/18/2009 have been fully considered and they are found persuasive.

Allowable Subject Matter/Reasons for Allowance

7. Claims 2-10, 12-15, 17-20, 23-28, 43 and 45-55 are allowed.

8. The following is an examiner's statement of reasons for allowance: The closest prior art located or identified by the Examiner is Lewis. Lewis teaches a composition comprising a solvent block copolymer, including A-B-A block copolymers, comprising a core and terminal block wherein the core block comprises zwitterionic pendant groups having a structure in accordance with Y-B-X as claimed. See Lewis, Abstract; col. 2, line 60 through col. 4, line 51; col. 7, lines 12-28; col. 10, line 54 through col. 11, line 45. Lewis further teaches substituents and compounds of general formula VIII. See col. 5, line 24 through col. 6, line 8. The current invention differs

from Lewis in that the current invention requires a method that uses a stimulus to change a liquid into a gel and the ABA block copolymer has a degree of polymerization of about 150 to 400.

9. As of the date of this Notice of Allowability, the Examiner has not located or identified any reference that can be used singularly or in combination with another reference including Lewis to render the present invention anticipated or obvious to one of ordinary skill in the art.

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
